

## >> PANDEMIC UPDATE <<

Dear Friends of CAST,

As you know, Southold Town has been on the front lines of the COVID-19 pandemic. CAST took action immediately to meet the needs of the community during this health and economic crisis. In early March, CAST called an Emergency Food Security meeting with several stakeholders to develop a response plan.

We are seeing a tremendous increase in need and expect that need will keep growing as this crisis continues and more people are unemployed. Our food expense has increased from approximately \$1,200 weekly to approximately \$7,000 weekly. We are serving hundreds of families at our Greenport office and new satellite locations, providing about 5,000 meals every week.

CAST has started receiving a large food delivery from Sysco weekly. Two pods were donated for food storage, and Slow Food East donated a tent for safe distribution from our parking lot. Thankfully, many volunteers have kindly offered their time to help us meet the tremendous need on the North Fork.

The response from our community has been overwhelmingly generous. I receive multiple calls daily from people in the community who recognize the important role CAST is playing in Southold Town at this time and want to thank us. Now I want to thank all of you for your continuing support of your neighbors during this crisis. CAST could not meet the unprecedented need without you!

With gratitude,
